Chapel Hill will use ESSER III funding to strategically address pandemic-related learning loss in our scholars, especially those disproportionately impacted by COVID-19. Working with key stakeholder groups, and guided by educational priorities for our scholars, we plan to leverage ESSER funds to provide students with access to high-quality, evidence-based extended learning time programming. This will include:

- providing support for teachers to effectively carry-out Tier II instruction to our scholars
- providing additional behavioral and social-emotional programming to support scholars in making a successful transition to in-person instruction
- providing our educators with staff development and retention opportunities
